|                      |                  |                                                        |          |                                       |                                       |
|                      |                  |                                                        |          |                                       |                                       |
|                      |                  |                                                        |          |                                       |                                       |

### EUROFINS USE ONLY

Parcel Ref:

## Sample Submission Form - Chemistry

**Document Reference:**  
SSF - CHEM

Revision: 04

**Effective date:**  
02 May 2024

*This is an uncontrolled document.*

## INSTRUCTIONS

1. Please ensure paperwork submitted matches samples prior to submission to Eurofins BPT NZ.
2. Separate samples should be submitted for chemistry and Microbiology testing (where possible).
3. Please select the applicable regulatory requirements for the Job Request under Job Type/ Requirement.
4. If more samples are to be submitted, additional Analysis Request Forms can be completed and attached.
5. Samples will be retained for 30 days after approval of the final report and then disposed of appropriately unless otherwise requested.

**TESTING REQUIRED (continued)**[illegible]
