Company				Contact Name				
Delivery Address				Phone No				
				Project Name/No				
Ordering Date		Required Date		Your Eurofins Contact				
Delivery Options	Pick up from			Standard Courier ♦		Overnight Courier ♣		International Courier ♣
♦Standard Courier : Local (Melbourne/Sydney/Adelaide/Brisbane) allow 2 days. Regional allow 5 days. ♣ Please contact your Eurofins contact to check availability in prior to submitting this form. Media should be returned to the laboratory within 15 days of receipt. Failure to return media within 21 days of receipt will result in a AU\$50⁰⁰ /week charge for extended use. Failure to return media within 45 days of receipt will result in invoicing of the replacement cost of outstanding media to the customer's project. Damaged or unreturned media will be charged to the customer the full replacement cost. Eurofins will provide the customer with media in good working condition. If client does not provide timely notice of defective media upon delivery, it will be presumed that the media was received in good working condition and will be invoiced according to the quoted price. The Client should direct all information regarding defective media to their Eurofins contact. Please read the General Media Agreement for more details. Submission of this form will be deemed as acceptance of the General Media Agreement.

GENERAL MEDIA AGREEMENT

To support the Client's air sampling project, Eurofins | mgt provides the media necessary for sample collection. Air sampling media may include evacuated canisters, flow controllers, and vacuum gauges.

Media should be returned to the laboratory within **15** days of receipt. Evacuated canisters have a finite timeframe before the canisters naturally lose vacuum during storage. Using canisters beyond **15** days increases the risk of having unacceptable initial vacuum at the start of sampling.

This risk increases the longer the canisters are in the field. Eurofins | mgt does not guarantee canister vacuum after **30** days.

Failure to return media within **21** days of receipt will result in a **AU\$50^{.00}※** / week charge for extended use. Failure to return media within **45** days of receipt will result in invoicing of the replacement cost of outstanding media to the customer's project.

Additionally, the Client is responsible for returning equipment in substantially the same condition as when received from Eurofins | mgt. Damaged or unreturned media will be charged to the customer as outlined in the table below.

Please contact Eurofins | mgt for items not listed in the table 1.

Table 1

Media	Replacement Value (AUD)※
1-Liter canister	\$750 ^{.00}
6-Liter canister	\$1,000 ^{.00}
Mass flow controller (e.q. 24-hr)	\$750 ^{.00}
RAD145	\$200 ^{.00}
Vacuum gauge	\$50 ^{.00}
Filter	\$50 ^{.00}
Packaging case	\$200 ^{.00}
TO-17 tube	\$150 ^{.00}
Soil Gas Manifold	\$300 ^{.00}

Eurofins | mgt will provide the customer with media in good working condition. If Client does not provide timely notice of defective media upon delivery, it will be presumed that the media was received in good working condition and will be invoiced according to the quoted price. The Client should direct all information regarding defective media to their Analytical Service Manager (ASM).

Submission of SUMMA CANISTER / PASSIVE SAMPLER ORDER FORM will be deemed as acceptance of the General Media Agreement.
