| ■ Trade / Industrial Waste | ■ Drinking (Potable) Water | ■ Irrigation Water |
| ■ Wastewater / Effluent | ■ Marine & Estuarine Waters | ■ Cooling Towers |

Our Capabilities

We are a full-service environmental testing operation certified across Australia.

Our laboratories are accredited for the analysis of a wide range of water samples;

- Emerging Contaminants including PFAS and 1,4-Dioxane
- Persistent Organic Pollutants including Dioxins/Dioxin-like PCBs/PBDEs
- Total Recoverable Hydrocarbons (TRHs)
- Semi-Volatile Organic Compounds (SVOCs)
- Volatile Organic Compounds (VOCs)
- Metals & Metalloids
- Physicochemical Testing (pH, Electrical Conductivity, Redox potential etc.)
- Water Chemistry (BOD, COD, TOC, TSS, TDS, etc.)
- Microbiology
- Microplastics

Full time staff available 24/7 to accommodate projects of any size

Extensive courier system for expedited turnaround times

Large inventory of instrumentation with built-in redundancy

Dedicated Analytical Service Manager (ASM) appointed for each client

Ongoing method development and method optimisation

Locations across Australia

Servicing Across Australia

Eurofins Environment Testing has laboratories located in Brisbane, Canberra, Geelong, Hobart, Melbourne, Newcastle, Perth and Sydney.

Our client service offices in Adelaide, Darwin, Townsville and Wollongong provide convenient access to our environmental testing services across Australia.
