

Reprocessing Validations

The importance of ensuring your products and instruments are clean and sterile every time they come into contact with a patient or end user cannot be overstated. The burden of responsibility falls on the manufacturers of finished medical devices to provide clear, understandable and reproducible cleaning and sterilisation protocols that have been validated to be effective.

With more than 30 years of experience in this field, Eurofins Medical Device Testing network of laboratories offers a broad range of microbiological, bio-/chemical and toxicological testing to examine products for the intended re-processing procedures according to AAMI TIR 12, AAMI ST98, ISO 17664-1 and ISO 17664-2 to validate procedures for manual and automated cleaning, disinfection and sterilisation.

Choose Eurofins Medical Device Testing to help you:

- Evaluate the effectiveness of your cleaning, disinfecting and sterilisation protocols
- Select the most appropriate test soil or organism to simulate practical use
- Identify inoculation sites on your instruments which represent worst case challenges (Consulting Service)
- Optimise your Instructions for Use (Consulting Service)
- Complete your regulatory dossiers with proven validation reports (Consulting Service)

Testing Available

- Simulated Use Cycles
- Manual Cleaning
- Automated Cleaning
- Disinfection
 - Chemical or Thermal
 - Manual or Automated
 - AAMI TIR 12 levels of disinfection acceptance criteria: Low, Intermediate or High
- Sterilisation
 - Dynamic Air Removal
 - Gravity Displacement
- Analysis of Chemical Residual
- Analytes
 - Visual Evaluation
 - Protein
 - Hemoglobin
 - Total Organic Carbon (TOC)
 - Cytotoxicity

Instrumentation

- Shakers
- Ultrasound Baths
- Washer Disinfectors
- Moist Heat Sterilisers
- TOC Analysers
- Microplate Readers

Testing Services

Biocompatibility & Toxicology • Cleaning & Reprocessing Validations
Chemical & Physical Analysis • Distribution & Package Integrity
Performance Testing • Human Factors & Usability • Microbiology &
Sterility Mechanical & Functionality • Viral Safety

Flexible Models

Fee For Service (FFS)
Full-Time-Equivalent (FTE)
PSS Insourcing Solutions®
