9690 - 9990	Jylland - Nord	225,0 kr.	290,0 kr.	455,0 kr.

Sample collection agreement

Eurofins Steins Laboratorium A/S has a logistics agreement with Jetpak to handle the laboratory's transport assignments and the collection of the laboratory's samples for analysis.

The agreement involves differentiated prices, as shown in the table to the left. The prices for collection are largely dependent on distance and planning. Early bookings results in cheaper sample pickup prices.

Collection of samples from islands without bridge connection is calculated individually. Small sampling tasks (max 15min): Price + supplement of DKK 300. Note that prices and zoning can be changed with one month's notice. An invoicing fee of DKK 35.00 is added.
