

## Legend

|              |                                                                                                                   |
|--------------|-------------------------------------------------------------------------------------------------------------------|
| ( $\Sigma$ ) | The recognition of this test depends on the type of sample.                                                       |
| CAS          | The CAS Registry Number is a unique identifier assigned by the Chemical Abstracts Service to chemical substances. |
| LOQ          | Limit of quantification.                                                                                          |
| RL           | Reporting limit.                                                                                                  |
| LOD          | Limit of detection.                                                                                               |
| MLOQ         | Maximum limit of quantification.                                                                                  |

## PLW8F-1 PFAS 4 in food and feed

**Applied on** Food and feed

|                               |                          |                                                   |             |
|-------------------------------|--------------------------|---------------------------------------------------|-------------|
| <b>Content</b> (see appendix) | LW1YK-3 ( $\Sigma$ )(SS) | PFOA (Perfluorooctanoic acid)                     | LC-MS/MS    |
|                               | LW1YQ-3 ( $\Sigma$ )(SS) | PFNA (Perfluorononanoic acid)                     | LC-MS/MS    |
|                               | LW1Z2-3 ( $\Sigma$ )(SS) | PFHxS (Perfluorohexanesulfonic acid)              | LC-MS/MS    |
|                               | LW1YV-3 ( $\Sigma$ )(SS) | PFOS (Perfluorooctanesulfonic acid)               | LC-MS/MS    |
|                               | LW1Z6-3                  | Sum of PFAS 4 excl. LOQ                           | LC-MS/MS    |
|                               | LW1XU-1                  | Preparation test for PFAS in food, feed and biota | Preparation |
