Reporting				
Reporting			Included above	

Special conditions for manufacturers belonging to SME as defined in Recommendation 2003/361/EC

Audit days, Application Fee and Annual Fees are dependent on the size (FTE) of the manufacturer

* Min and Max Cost range is a reasonable estimation based on the experiences made so far with the management of the commitments necessary to carry out the certification processes. Actual commitments and consequent maximum values may be increased because of many factors not predictable (Eg. complexity and quality of the technical documentation, number and variants of device, number and types of findings, number of doc. re-verification needed)
