 - Safety
- Laboratory Testing
 - Analytical Chemistry
 - Microbiology
 - Proteomics
 - Biochemistry
 - Genomics
 - Immunochemistry
 - Biological Assays
 - Medical Devices
 - Formulation
- Purification
- Engineering
- Viral Clearance
- Flow Cytometry
- CAR T
- Gene therapies
- Vaccine technologies
- Immunotherapies
- Process Development
 - Method Development
 - Method Validation
 - Scale Up and Transfer Support
 - Pilot Plant Support
 - Medical Device Testing
 - Characterization
 - Fill Finish/ Packaging
 - Cell Line Development
 - Genetic Characterization
 - Centralized Analytical Testing
- Quality Control
 - QC Testing
 - Document Management
 - Stability Programs
 - Compendial Testing
 - Release
 - Reference Standards
 - Method Validation
 - Data Review
 - Compliance
- International Regulatory Support/ Transfers
- Bioinformatics/ Data Modeling
- Automation
- Regulatory Submissions
- LEAN Operations/ Laboratory Design
- Clinical Study Management
- Training

Upstream and Downstream GMP/GLP Bio/Pharma Testing & Support Services
