See Reverse Side For Sampling Guide

Samples will be disposed of 30 days after analysis.

PLM Asbestos Bulk Sampling

A. Sample Size

1. Submit a portion approximately 1" x 1" (1 cubic inch).
2. For thin surfacing materials, submit approximately 1" x 1" (1 square inch).

B. Packaging

1. Submit samples in a leak-proof container (e.g., zip-lock bag or screw-top vial; please do not use film canisters).
2. Please do not staple sample bags together, as staples may cause leaks in the zip-lock bags.
3. Please do not put multiple samples, or different sample types in the same container.
4. Complete the sample submittal form and include it with the samples. Please select PLM (EPA 600) as the test type.

C. Condition

1. The laboratory prefers samples to be submitted dry.

D. Additional

1. The laboratory analyzes the entire submitted sample. If there is a portion of the sample you do not want analyzed, please indicate this on the sample submittal form.

If you are submitting samples outside of standard business hours, please use the sample drop box located at the front of the building.

Business Hours: Monday - Friday 8:00AM - 5:00PM.
