RE: Renewal of Massachusetts DEP Certification of non-Massachusetts Laboratory

Dear Environmental Laboratory Director:

Attached is your renewed Massachusetts certificate for environmental analysis. This certificate with the accompanying certified parameter list is in effect through June 30, 2027 and is subject to revision throughout the year to reflect your laboratory's performance in proficiency tests (PTs) and its resident state certification status. **Be sure to successfully perform PT studies for the analytes and methods that are on the parameter list and maintain resident state certification for those same analytes and methods.**

Please ensure that your laboratory is performing analyses using the currently approved revisions of methods. The currently approved revisions of methods for analysis under the Safe Drinking Water Act are listed in the Code of Federal Regulations at 40 CFR Part 141 and 310 CMR 22.00; the approved revisions of methods for analysis under the Clean Water Act are listed at 40 CFR Part 136.

Please **EXAMINE** the certificate and the certified parameter list **VERY CAREFULLY** to ensure that the categories, analytes and methods for which your laboratory is approved appear correct. Please verify the accuracy of your laboratory's name, address, and director and notify this office **in writing** within 10 days of receipt of this letter of any corrections to be made.

Please display the certified parameter list with your certificate. Your certificate is valid only when accompanied by the latest dated certified parameter list as issued by MassDEP.

Remember to notify this office of any significant changes at your laboratory within the prescribed timelines in accordance with 310 CMR 42.13.

Please note that, pursuant to 310 CMR 42.12(2)(b), the Department may issue written notice of revocation of certification to a laboratory that has had its certification status downgraded to provisional certification status and that fails to satisfactorily correct deficiencies within six months of the notice of downgrading to provisional certification status.

Pursuant to 310 CMR 42.12(3)(e), a laboratory that has had its certification status revoked and that fails to satisfactorily correct deficiencies within six months of the notice of revocation must comply with the permit application process, including payment of the application fee, if it wishes to secure certification. **Note that this applies to revocations of certification for any deficiency, including failed proficiency tests.**

If you intend to modify methods or analytical requirements pursuant to 40 CFR Part 136.6, please notify Nicole Paradise, EPA Region 1, prior to making any changes.

Copies of laboratory certification regulations, policies, applications and forms may be found at:

<https://www.mass.gov/certified-laboratories>

If you have any questions regarding the Massachusetts Laboratory Certification Program, please do not hesitate to contact me.

Sincerely,

***for the analysis of* POTABLE WATER (CHEMISTRY)**

pursuant to 310 CMR 42.00

This certificate supersedes all previous Massachusetts certificates issued to this laboratory. The laboratory is regulated by and shall be responsible for being in compliance with Massachusetts regulations at 310 CMR 42.00.

This certificate is valid only when accompanied by the latest dated Certified Parameter List as issued by the Massachusetts D.E.P. Contact the Division of Environmental Laboratory Sciences to verify the current certification status of the laboratory.

Certification is no guarantee of the validity of the data. This certification is subject to unannounced laboratory inspections.
